

EarthLink® Business DSL

Count on us to take your business to the next level

Increased productivity— your competitive advantage.

EarthLink understands the challenges facing small and medium-sized businesses in today's competitive marketplace. To succeed, you need to effectively leverage technology that increases your productivity and efficiency, and keeps you connected to your customers, vendors, and employees. EarthLink Business DSL is a dependable, cost-effective broadband solution offering guaranteed speeds, along with features designed for businesses like yours.

Partner with a name you can trust.

The small business experts at EarthLink have been connecting millions of satisfied customers for over 10 years. Our Business DSL service is backed by dedicated priority business support and an industry-leading Service Level Agreement. And our scalable business solutions are designed to meet the needs of your growing business at every stage.

EarthLink Business DSL delivers the features your business needs:

- **Exceptional value:** only a fraction of the cost of a T1 or other dedicated connections
- **Connect your entire office:** high-speed Internet access for every employee
- **Guaranteed, professional installation:** within 30 days or your first month is free
- **Performance guarantees:** our industry-leading SLA guarantees 99.9% uptime
- **Priority Business Support:** our dedicated business team is available 24/7
- **DSL router with built-in firewall:** count on business-class security
- **8 static IP addresses:** host your own email, Web, VPN, and FTP servers
- **25 email accounts:** each box protected by spamBlocker, EarthLink's powerful protection against junk email
- **Unlimited dial-up access:** with over 5,000 local access numbers you can stay connected wherever your business takes you
